**Foreword**

This South African standard was approved by National Committee SABS/TC 081/SC 01, *Construction materials, products and test methods – Cement, lime and concrete*, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement.

This document was published in October 2014.

This document supersedes SABS 0100-2:1992 (edition 2).

**This document is referenced in the National Building Regulations and Building Standards Act, 1977 (Act No. 103 of 1977).**

Reference is made in 3.1.1.3 to the "relevant national body". In South Africa this means the South African National Accreditation System (SANAS).

Reference is made in table 1 to the "relevant national body". In South Africa this means Transnet.

SANS 10100 consists of the following parts, under the general title *The structural use of concrete*:

*Part 1: Design.*

*Part 2: Materials and execution of work.*

Annexes A and B are for information only.
