Approved according to SABS procedures on 16 April 1999.

Scope of amendment

The standards have been amended to replace references to SABS methods, which have been withdrawn and superseded, with references to SABS ISO methods. The SABS ISO methods cover colourfastness and quantitative textile fibre analysis.

NOTES

1 Not all the test methods listed on page 2 appear in every standard. Users are requested to replace only the relevant test methods to which reference is made in the applicable standard.

2 For the sake of brevity, see the SABS catalogue for titles.

Collective amendment No. 1 : 16 April 1999

General

In the standards given on p. 1, delete the references to the SABS methods given in column 1 of the following table wherever they appear in the relevant standard, and insert the references to the applicable SABS ISO methods given in column 2.

1	2
SABS methods	SABS ISO methods
