SOUTH AFRICAN NATIONAL STANDARD

Cement

Part 1: Composition, specifications and conformity criteria for common cements

This national standard is the identical implementation of EN 197-1:2011, and is adopted with the permission of CEN, rue de Stassart 36, B-1050 Brussels.
National foreword

This South African standard was approved by National Committee SABS SC 59A, *Construction standards – Cement, lime and concrete*, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement.

This SANS document was published in May 2013.

This SANS document supersedes SANS 50197-1:2000 (edition 1, as modified by EN amdt 1:2004 and Nat. amdt 1:2006).

This document is referenced in the *Compulsory specification for cement*, as published by Government Notice No. R. 544 (Government Gazette No. 30023) of 6 July 2007.

Cement - Part 1: Composition, specifications and conformity criteria for common cements

This European Standard was approved by CEN on 6 August 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
