In terms of the Standards Act 8 of 2008, the copyright in all South African National Standards or any other publications published by the SABS Standards Division, vests in the SABS. Any use of South African National Standards is limited to use specifically prescribed by the SABS. In the case of a South African National Standard based on an international standard, ownership of the copyright vests in the organization from which the SABS adopted the standard, whether it be under licence or membership agreement. The SABS is obliged to protect such copyright and is authorized to make the relevant international organization aware of any misuse thereof. Unless exemption has been granted, no extract or full text of any South African National Standard may be copied, reproduced, stored in a retrieval system or transmitted in any form or by any means without prior written permission from the SABS Standards Division. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any purpose other than implementation, prior written permission must be obtained.

Details, advice and limitations of use can be obtained from the Manager: Standards Sales and Information Services. Tel: +27 (0) 12 428 6883 email: [sales@sabs.co.za](mailto:sales@sabs.co.za)

### **SABS – Standards Division**

The objective of the SABS Standards Division is to develop, promote and maintain South African National Standards. This objective is incorporated in the Standards Act, 2008 (Act No. 8 of 2008).

The SABS continuously strives to improve the quality of its products and services and would therefore be grateful if anyone finding an inaccuracy or ambiguity while using this standard would inform the secretary of the technical committee responsible, the identity of which can be found in the foreword.

**Table of changes**

<b>Change No.</b>	<b>Date</b>	<b>Scope</b>
Amdt 1	2018	Amended to change tables on coefficient of retro-reflection ( $R_A$ ) cd / (lx.m <sup>2</sup> ), chromaticity co-ordinates of the points of intersection of the boundary lines of the limiting area on the chromaticity diagram, before and after weathering, for red surfaces, and on chromaticity co-ordinates of the points of intersection of the boundary lines of the limiting area on the chromaticity diagram, before and after weathering, for yellow surfaces, to update the requirements for the test for low temperature behaviour, and to move the figure on retro-reflective chevron sign (type J) from the subclause on test temperature for low temperature behaviour to the annex on notes to purchasers.

**Foreword**

This South African standard was prepared by National Committee SABS/TC 1070, *Retro-reflection*, in accordance with procedures of the South African Bureau of Standards, in compliance with annex 3 of the WTO/TBT agreement.

This document was approved for publication in August 2018.

This document supersedes SANS 1329-4:2017 (edition 4).

A vertical line in the margin shows where the text has been technically modified by amendment No. 1.

**This document is referenced in the National Road Traffic Act, 1996 (Act No. 93 of 1996).**

Reference is made in 4.1.1 to the "relevant national legislation". In South Africa this means the relevant regulations of the National Road Traffic Act, 1996 (Act No. 93 of 1996).

SANS 1329 consists of the following parts, under the general title *Retro-reflective and fluorescent warning signs for road vehicles*:

*Part 1: Triangles.*

*Part 2: Abnormal load vehicle signs.*

*Part 3: Signs other than triangles, chevron signs and abnormal load vehicle signs.*

*Part 4: Retro-reflective chevron signs and decals.*

Annex A forms an integral of this document. Annex B is for information only.
