Ed. 1.1

Notice

This standard was approved in accordance with SABS procedures on 15 November 1991.

Manufacturers producing safety helmets for pedal cyclists to this standard may, under a mark permit issued by the SABS, apply the certification mark to the commodity as evidence to the purchaser that the commodity is being made in accordance with the standard and that compliance with its requirements is ensured by tests and inspections carried out by the SABS.

NOTES

1 In terms of the Standards Act, 1993 (Act 29 of 1993), it is a punishable offence for any person other than a mark permit holder to apply a certification mark to a commodity or to refer to the SABS or any of its standards in a manner likely to create the impression that the commodity has been approved by the SABS. Furthermore, no person shall claim or declare that he or any other person complied with an SABS standard unless

- a) such claim or declaration is true and accurate in all material respects, and
- b) the identity of the person on whose authority such claim or declaration is made, is clear.

2 It is recommended that authorities who wish to incorporate any part of this standard into any legislation in the manner intended by section 31 of the Act consult the SABS regarding the implications.

This standard will be revised when necessary in order to keep abreast of progress. Comment will be welcome and will be considered when the standard is revised.

Foreword

Annex A forms an integral part of this standard. Annexes B and C are for information only.

A vertical line in the margin shows where the text has been modified by amendment No. 1.

Attention is drawn to the normative reference given in clause 2 of this standard. This reference is indispensable for the application of this standard.
