Foreword

This South African technical report was approved by National Committee SABS SC 1060B, *National committee for standards for dangerous goods including hazardous chemical substances and dangerous goods waste – Classification, operational requirements and information*, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement.

This SATR was published in September 2012.

This SATR supersedes SATR 10228:2010 (edition1).

Introduction

This technical report is intended as a supplement to SANS 10228:2012. It is published primarily for the benefit of the chemical industry in South Africa, and more specifically for those industry members who are exporting or shipping dangerous goods by sea. It is presented in the form of a list, highlighting specific clauses that contain variations between the 2012 edition of SANS 10228 and the 17th revised edition of the *Recommendations on the transport of dangerous goods, Model Regulations*.

The report will have a limited lifespan; it is only valid until the publication of the next edition of SANS 10228.

NOTE For detailed changes to the 16th edition of the *Recommendations on the transport of dangerous goods, Model Regulations*, see document ST/SG/AC.10/38/Add.1 on the UN website, www.unece.org/trans. The 17th edition can be accessed in full on the same website.
