In terms of the Standards Act 8 of 2008, the copyright in all South African National Standards or any other publications published by the SABS Standards Division, vests in the SABS. Any use of South African National Standards is limited to use specifically prescribed by the SABS. In the case of a South African National Standard based on an international standard, ownership of the copyright vests in the organization from which the SABS adopted the standard, whether it be under licence or membership agreement. The SABS is obliged to protect such copyright and is authorized to make the relevant international organization aware of any misuse thereof. Unless exemption has been granted, no extract or full text of any South African National Standard may be copied, reproduced, stored in a retrieval system or transmitted in any form or by any means without prior written permission from the SABS Standards Division. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any purpose other than implementation, prior written permission must be obtained.

Table of changes

Change No.	Date	Scope
Nat. amdt 1	2017	Amended to update the national foreword, and the annex on energy efficiency of air conditioners (annex AA).

National foreword

This South African standard was prepared by National Committee SABS/TC 075, *Performance of household and similar electrical appliances*, in accordance with procedures of the SABS, in compliance with annex 3 of the WTO/TBT agreement.

This document was approved for publication in May 2017.

This document supersedes SANS 54511-3:2016 (edition 2).

A vertical line in the margin shows where the text has been technically modified by national amendment No. 1.

This national standard is the identical adoption of EN 14511-3, but with the addition of a national annex on the energy efficiency of air conditioners. The technical information required for the calculation of energy classes were obtained from European Directive. **Nat. amdt 1**

Compliance with this document cannot confer immunity from legal obligations.
