COPYRIGHT PROTECTED DOCUMENT

© SABS

In terms of the Standards Act 8 of 2008, the copyright in all South African National Standards or any other publications published by the SABS Standards Division, vests in the SABS. Any use of South African National Standards is limited to use specifically prescribed by the SABS. In the case of a South African National Standard based on an international standard, ownership of the copyright vests in the organization from which the SABS adopted the standard, whether it be under licence or membership agreement. The SABS is obliged to protect such copyright and is authorized to make the relevant international organization aware of any misuse thereof. Unless exemption has been granted, no extract or full text of any South African National Standard may be copied, reproduced, stored in a retrieval system or transmitted in any form or by any means without prior written permission from the SABS Standards Division. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols, and size, type or grade designations. If these details are to be used for any purpose other than implementation, prior written permission must be obtained.

Details, advice and limitations of use can be obtained from the Manager: Standards Sales and Information Services. Tel: +27 (0) 12 428 6883 email: sales@sabs.co.za

SABS – Standards Division

The objective of the SABS Standards Division is to develop, promote and maintain South African National Standards. This objective is incorporated in the Standards Act, 2008 (Act No. 8 of 2008).

The SABS continuously strives to improve the quality of its products and services and would therefore be grateful if anyone finding an inaccuracy or ambiguity while using this standard would inform the secretary of the technical committee responsible, the identity of which can be found in the foreword.

Buying Standards

Contact the Sales Office for South African and international standards, which are available in both electronic and hard copy format. Tel: +27 (0) 12 428 6883 email: sales@sabs.co.za

South African National Standards are also available online from the SABS Webstore www.store.sabs.co.za

Information on Standards

SABS Customer Services provide comprehensive standards-related information on national, regional and international standards. Tel: +27 (0) 12 428 7911 / 0861 27 7227 email: info@sabs.co.za

SANS 1480:2005
Edition 1.2

Table of changes

Change No.	Date	Scope
Amdt 1	2000	Amended to update definitions, to change the performance requirements for rate of flow and to include an aging procedure for the mixer tap.
Amdt 2	2005	Amended to update referenced standards, to add a definition for “acceptable” and to change a requirement for stainless steel.

Foreword

This South African standard was prepared by National Committee SABS/TC 138/SC 02, *Water and sanitation – Equipment and systems – Plumbing components*, in accordance with procedures of the South African Bureau of Standards, in compliance with annex 3 of the WTO/TBT agreement.

This edition cancels and replaces edition 1.1 (SABS 1480:2000).

A vertical line in the margin shows where the text has been technically modified by amendment No. 2.

Compliance with this document cannot confer immunity from legal obligations.

**Reaffirmed and reprinted in March 2019.
This document will be reviewed every five years
and be reaffirmed, amended, revised or withdrawn.**

Contents

	Page
Foreword	
1 Scope	3
2 Definitions	3
3 Design requirements	4
4 Constructional requirements	4
5 Performance requirements	5
6 Marking	6
7 Inspection, aging and methods of test	6
7.1 Inspection and aging	6
7.2 Test for rate of water flow and sensitivity of temperature control function	7
7.3 Test for strength of construction	7
7.4 Torque resistance test (back nuts, inlet shanks and head parts)	8
7.5 Torque resistance test (fully assembled mixers)	8
7.6 Durability test	9
7.7 Test for resistance of mixer control to bending	9
7.8 Impact resistance test	10
7.9 Heat resistance test (plastics components)	10
7.10 Dezincification resistance test	10
