SANS 140-3:1995

Edition 1 and ISO amdt 1

ISO 140-3:1995

Edition 2 and amdt 1

SOUTH AFRICAN NATIONAL STANDARD

Acoustics — Measurement of sound insulation in buildings and of building elements

Part 3: Laboratory measurements of airborne sound insulation of building elements

This national standard is the identical implementation of ISO 140-3:1995 and amendment 1, and is adopted with the permission of the International Organisation for Standardization.

Table of changes

Change No.	Date	Scope
ISO amdt 1	2004	Amended to add annex H.

National foreword

This South African standard was approved by National Committee SABS TC 76, *Acoustics, electro-acoustics and vibration*, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement.

**Reaffirmed and reprinted in November 2010.
This standard will be reviewed every 5 years and
either be reaffirmed, amended, revised or withdrawn.**

AMENDMENT 1
2004-12-01

Acoustics — Measurement of sound insulation in buildings and of building elements —

Part 3:

Laboratory measurements of airborne sound insulation of building elements

**AMENDMENT 1: Installation guidelines for
lightweight twin leaf partitions**

*Acoustique — Mesurage de l'isolement acoustique des immeubles et
des éléments de construction —*

*Partie 3: Mesurage en laboratoire de l'affaiblissement des bruits aériens
par les éléments de construction*

*AMENDEMENT 1: Conditions particulières de montage des cloisons à
doubles parements légers*

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

Amendment 1 to ISO 140-3:1995 was prepared by the European Committee for Standardization (CEN) in collaboration with Technical Committee ISO/TC 43, *Acoustics*, Subcommittee SC 2, *Building acoustics*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).
